HARSH MISHRA

Frontend Developer

PROFILE

Frontend Developer focused on crafting high-performance, pixel-perfect web experiences. Proficient in translating design concepts into functional, responsive interfaces using React and modern tooling. Committed to 100% continuous learning and building interfaces people love to use.

EXPERIENCE

Frontend Developer | Personal & Live Projects 2025 – Present

- Developing real-world websites including Refrigeration House and Scloser.
- Implementing clean, functional user interfaces and improving admin dashboard usability.
- Focusing on layout consistency and responsive performance across all device sizes.
- Used AI to speed tasks

UI/UX & Web Design Projects | Portfolio Development 2025 – Present

- Designed and built 10+ projects including Frontend Dev Portfolio and Travel Talks.
- Utilized Figma for high-fidelity wireframing and prototyping before development.
- Integrated modern libraries like Typed.js and SCSS to enhance user engagement.

FEATURED PROJECTS

- Built a food reel app (Zomato-style) with MERN stack featuring authentication and personalized feeds.
- Built a sleek corporate portfolio (SKY) highlighting professional services.
- Built a travel podcast platform for community-driven discussions and exploration.

EDUCATION

Diploma in Graphic, Web Design & Development | Arena Animation, Delhi | 2023 – 2025

B.A. English (Hons.) | Delhi University | 2024 – Present

STRENGTHS

- AI-Driven Workflow: Expert in using AI tools for faster debugging and UI generation.
- Creative Problem Solver: Balancing visual structure with technical usability.
- Collaborative: Experienced in coordinating with designers to ensure pixel-perfect implementation.
